

PUBLIC NOTICE

COURTROOM 9C

REQUEST FOR PROPOSALS FOR PROFESSIONAL SERVICES
TO PROVIDE AND INSTALL A COMPLETE AUDIO VIDEO SOLUTION
FOR THE
SOUTHERN DISTRICT OF TEXAS

Public Notice is hereby given that the United States District Court, Southern District of Texas, is soliciting a Request for Proposal (RFP) responses for professional services to provide and install a complete video conference solution and projector in a District Courtroom.

This RFP is available in electronic form at the following link:

Interested vendors shall submit the proposals to the Contracting Officer no later than 12 Noon CDT on Thursday, September 19th, 2013. The proposals may be delivered by Express Delivery, Certified or Registered U.S. Mail or by hand to:

Mailing address:
United States District Court
Attn: Contracting Officer
P.O. Box 61010
Houston, TX 77208

Physical address:
United States District Court
Attn: Contracting Officer
515 Rusk Street, Room 5008
Houston, TX 77002

The proposals may be delivered electronically to:
Damon_Barrett@txs.uscourts.gov

Respondent bears the risk of late delivery.

END OF PUBLIC NOTICE

The **delivery address** for this purchase will be:

U.S. District Court
515 Rusk
Houston, Texas 77002

“STATEMENT OF WORK”

1. Description

Design, provide, and install a complete working audio and video solution to replace an old audio/video solution in a District Courtroom located on the 9th floor at 515 Rusk, Houston, Texas.

1.1 Introduction

The United States District Court in Houston, Texas is replacing the audio/video system in a District courtroom. The overall system design will be coordinated by the court, which is defined in the scope paragraph below. The vendor will be responsible for all components, hardware, cables, terminations, connectors, and any other parts needed to make this a complete and functional system except for those items included in the court provided equipment section. The vendor will also be responsible for all automation programming to control the audio/video solution. Upon completion and acceptance of the system, the courts will become the owners of any and all software source codes, touch panel design software that is relevant to this upgrade.

1.2 Purpose

To obtain a qualified contractor to design, provide, and install an Audio/Video system, in Courtroom 9c of the Bob Casey Federal Building in Houston, Texas. The contractor must have been in the A/V Design/Build business for at least 5 years and be familiar with all aspects of audio integration and calibration, video configuration, switching systems, IR emitter systems, annotation systems, and AMX automation programming.

1.3 Scope

The vendor will provide all relevant Audio, Video, Annotation, and Automation hardware for this design. This project involves the removal of an existing solution including racked equipment, cabling in conduit, and old components from the courtroom (court will keep all old components). The design should not include components that are proprietary to the vendor (invented or manufactured by the contractor). Contractor will provide as built drawings at the completion of the installation. The court shall provide electrical service, however the contractor will need to utilize existing infrastructure (Conduits to and from the electrical closet where the head end rack will be located).

Video

The video system should provide functional switching between 6 different laptop positions, several PC locations, document camera, and a Blu-Ray/DVD player. There will be two monitors on each of the two attorney's tables, one at the lectern, one at the AV tech cart for (which will contain the document camera and the BluRay/DVD player), and a courtroom video projector. Each source position should be equipped with both VGA w/audio and HDMI connections. Courtroom monitors should accept both HDMI & DVI connections. There will be additional monitors located at the clerk's desk, witness stand, court reporter and the judge's bench. The switching system should provide for audio follow video at each source location. This audio will be incorporated into the courtroom sound system. All signal switching devices should be capable of transmitting signals up to and including 1920 x 1200 resolution, while still retaining the capacity to operate at the 1024 x 768 signal level. A jury on/jury off command will be incorporated into the automation system's touch panels blacking out the selected source to the projector when activated. A video capture device is needed at the clerk's desk enabling capture and printing of images displayed on the evidence monitors.

Audio

The audio system will contain 2 clock audio gooseneck microphones at each of the attorney's tables, one at the witness stand, one at the AV cart, one at the lectern, two on the tables in front of the clerk's desk, and one at the judge's bench. There will also be a digital wireless microphone system consisting of a handheld transmitter and a belt pack transmitter, with a dual receiver. There should be two microphone inputs at the spectator benches for VOIR DIOR when needed. There will be a bench conference microphone that will be routed to the digital court recording system, not into the courtroom sound system. The audio system shall be a zoned, mix-minus system, to provide the best possible sound pressure levels for intelligibility before feedback. Through the use of digital matrix routing, sub-mixers, combiners, and direct inputs, the audio signals should be available as an input to the court

digital recording system (FTR Gold). Microphones will be grouped in a combined manner in order to deliver 8 channels of audio to an FTR court recording system and the configuration should be approved by the court. The FTR recording system shall be independent of the general courtroom audio system. There will be a dedicated record only microphone connection on each of the attorney's tables to provide active audio to the digital recorder even if the general audio mixer should fail during a proceeding. The audio system controls should be tied into the automation system allowing the judge or the clerk to mute any or all microphones, select a bench conference preset, and to raise or lower the volume associated with the teleconferencing system or to make adjustments to the playback levels of the laptops, PCs, and the BluRay/DVD player. The system should also have an integrated room audio teleconferencing system that is functionally controllable through the automation system. There should be a line level audio signal available under the court reporters desk for headphone monitoring (3.5 mm output) and an additional audio out for listening through a desk top powered monitor speaker. Except when audio is muted, audio should be routed at all times to the court reporter location including during bench conference. The audio system installation will also include installing ceiling mounted speakers into defined locations within the courtroom and connection to the chambers/office areas with the ability to turn chambers on/off.

The IR assisted listening system will be configured to allow for Channel 1 to be accessible for courtroom translation purposes and Channel 2 to be used for general courtroom assisted listening for those with hearing impairments.

AMX Control

The AMX automation system will consist of one AMX NI4100 central controller with 3Com 2 cards, leaving one com slot available for future expansion. There will be two AMX MXT 1000 touch panels, one at the judge's bench and the other at the clerk's bench. The vendor is responsible for all necessary POE devices, interface cabling, and work switches to complete the automation system. The AMX control panels should allow for muting/unmuting of the microphones, muting/unmuting BluRay/DVD and PC audio, bench conference initiation, switching of audio and video sources, jury on/off switch, and local/evidence selection at the judge's bench.

Matrix:

The design should include connection from existing cameras located in the courtroom as well as courtroom audio feed to the courts existing matrix infrastructure for courtroom overflow to other courtrooms. It should also include an incoming ability of audio/video from the matrix system for overflow capability to this courtroom. The ability to send/receive these signals should be controlled by the automation system.

Annotation:

Touch screen annotation at the witness stand, the lectern, and the judge's bench. The annotation system controller and the system components should be connected via USB. There will be 3 touch screen NEC 23" monitors (monitors should match the evidence monitors/PC monitors).

Court Provided Equipment:

Color printer for video evidence capture printing.
Re-use existing equipment rack.

Vendor Provided Components

Note: Vendor is responsible for all components relevant to this scope that are not listed as court provided. The court has only specified the equipment that would prefer in this design, not necessarily all components needed to complete the requirements in the scope are listed.

Audio Components

Qty	Description
1	Clearone Converge Pro 880t or Equal
1	Clearone Converge Pro 8i or Equal
8	Clock C35ESR/RF Gooseneck Microphone or Equal
2	Clock C34ESR/RF Gooseneck Microphone or Equal
1	Shure ULXD124D/SM58 Dual Digital Wireless System with High Density tuning and on board encryption, Handheld Mic or Equal
1	Shure WL185 Lavalier Microphone for digital wireless beltpack or Equal

1	QSC CX108V 8Channel 70Volt Audio Power Amplifier or Equal

1	Extron Anotation System or Equal
3	NEC MultiSync 23" Touch Screen Monitor w/HDMI or Equal
3	Extron USB Extender Tx or Equal
3	Extron USB Extender Rx or Equal
1	Extron USB Hub Device or Equal

Note: Additional equipment may be added to complete vendor design where necessary.

1.4 Contractor Requirements

The contractor must have installed a complete Audio/Video/Automation solution into a US District Courtroom or an equivalent installation previously. The vendor should have direct dealer status with all of the specified hardware components and be certified on Polycom, AMX, and Extron professional products.

2. Description of Deliverables

Demonstrate a working audio/video solution approved by the Court, complete with FTR Recorder, AMX control, Video Conferencing, Teleconferencing and IR emitters for interpretation and hearing impaired according to requirements by the Court.

Location

U.S. District Courthouse
515 Rusk
Houston, Tx 77002

Schedule Dates

To Be Determined

Review and Acceptance

Acceptance based on final walk through and testing upon job completion with USDC COTR, Darren Berglan. Contractor will have five (5) business days to correct any deficiencies.

3.0 Contacts

The following contacts are provided by the court to the vendor:

Contracting Officer (CO)

Marrienne Still (713) 250-5353

Contracting Officer's Technical Representative (COTR)

Darren Berglan (713) 250-5435

Procurement Specialist

Damon Barrett (713)250-5935

APPLICABLE JUDICIARY TERMS AND CONDITIONS

1) Provision B-1, Solicitation Provisions Incorporated by Reference (SEP 2010)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the contracting officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this address: <http://www.uscourts.gov/procurement.aspx>

1) Clause B-5, Clauses Incorporated by Reference (SEP 2010)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the contracting officer will make their full text available. Also, the full text of a clause may be accessed electronically at this address: <http://www.uscourts.gov/procurement.aspx>

(end)

2) The following clauses are included by reference:

Clause 3-3, Provisions, Clauses, Terms and Conditions - Small Purchases (APR 2013)

Clause 2-130, Energy Efficiency in Energy-Consuming Products (APR 2013)

(applicable if this purchase will require providing energy-consuming products)

3) Provision 3-5, Taxpayer Identification and Other Offeror Information (APR 2011)

(a) *Definitions.*

“Taxpayer Identification (TIN),” as used in this provision, means the number required by the Internal Revenue Service (IRS) to be used by the offeror in reporting income tax and other returns. The TIN may be either a social security number or an employer identification number.

(b) All offerors shall submit the information required in paragraphs (d) and (e) of this provision to comply with debt collection requirements of 31 U.S.C. 7701(c) and 3325(d), reporting requirements of 26 U.S.C. 6041, 6041A, and implementing regulations issued by the IRS. If the resulting contract is subject to the payment reporting requirements, the failure or refusal by the offeror to furnish the information may result in a 31 percent reduction of payments otherwise due under the contract.

(c) The TIN may be used by the government to collect and report on any delinquent amounts arising out of the offeror’s relationship with the government (31 U.S.C. 7701(c)(3)). If the resulting contract is subject to payment recording requirements, the TIN provided hereunder may be matched with IRS records to verify the accuracy of the offeror’s TIN.

(d) *Taxpayer Identification Number (TIN):* _____

- TIN has been applied for.
- TIN is not required, because:
- Offeror is a nonresident alien, foreign corporation or foreign partnership that does not have income effectively connected with the conduct of a trade or business in the United States and does not have an office or place of business or a fiscal paying agent in the United States;
- Offeror is an agency or instrumentality of a foreign government;
- Offeror is an agency or instrumentality of the federal government.

(e) *Type of organization:*

- sole proprietorship;
- partnership;

- corporate entity (not tax-exempt);
- corporate entity (tax-exempt);
- government entity (federal, state or local);
- foreign government;
- international organization per 26 CFR 1.6049-4;
- other _____.

(f) Contractor representations.

The offeror represents as part of its offer that it is , is not, 51% owned and the management and daily operations are controlled by one or more members of the selected socio-economic group(s) below:

- Women Owned Business
- Minority Owned Business (if selected, then one sub-type is required)
 - Black American
 - Hispanic American
 - Native American (American Indians, Eskimos, Aleuts, or Native Hawaiians)
 - Asian-Pacific American (persons with origins from Burma, Thailand, Malaysia, Indonesia, Korea, The Philippines, U.S. Trust Territory of the Pacific Islands (Republic of Palau), Republic of the Marshall Islands, Federated States of Micronesia, the Commonwealth of the Northern Mariana Islands, Guam, Samoa, Macao, Hong Kong, Fiji, Tonga, Kiribati, Tuvalu, or Nauru)
 - Subcontinent Asian (Asian-Indian) American (persons with origins from India, Pakistan, Bangladesh, Sri Lanka, Bhutan, the Maldives Islands, or Nepal)
 - Individual/concern, other than one of the preceding.

(end)

(The contracting officer will attach any other applicable standard judiciary provisions or clauses. The contracting officer will not include provisions or clauses which are already in the Clause 3-3. CO Note: Before including additional provisions or clauses refer to the Guide, Volume 14, Appendix 1C to determine, if the provision or clause can be included by reference or must be included in full text. If additional provisions are included by reference, then B-1 also must be included.)

99832 - Surveying Technician	18.13
99840 - Vending Machine Attendant	12.00
99841 - Vending Machine Repairer	14.41
99842 - Vending Machine Repairer Helper	12.31

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$3.81 per hour or \$152.40 per week or \$660.40 per month

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate,

then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives.

Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an

adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C) (vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.
